TO THE TRADE:

We take pleasure in presenting our 1928 contract and general trade list.

An institution grows as it is capable of serving well its many customers: WE serve the discriminating trade what they demand: MERIT FLOWER SEEDS.

We are justly proud of the esteem and favor our stocks have attained, and devote all our energies to the perfecting of strains and the breeding up of new varieties.

We extend to the seed trade a most cordial invitation to visit our experimental and test grounds and our extensive ranches, and personally acquaint themselves with the purity of our cultures.

We again welcome the opportunity to thank our patrons for their generous support in the past and will do our utmost to justify their continuance.

GENERAL CONDITIONS OF DELIVERY

For every order, we agree to plant sufficient land to produce the desired quantity of seed under normal conditions.

Should the outcome of the crop be lower than our estimation, orders will be filled pro rata only.

Crop failure or any other cause beyond our control releases us entirely from delivery.

We give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds we sell, and we will not be in any way responsible for them.

WALLER-FRANKLIN FORMULA MIXTURES

As the result of years of experimenting, our research department has perfected certain color blends of various mixtures.

These mixtures were subject to the criticism of visiting seedsmen for several years and when unanimously approved were considered MASTER FORMULAE.

Mixtures grown from these Master Formulae are listed in this catalog as "WALLER-FRANKLIN FORMULA MIXTURES."

PHOTOGRAPHS

We have a large collection of photographs of annuals and perennials and we will be pleased to send selections for your inspection.

CARNATION CHABAUD'S GIANT IMPROVED

A new acquisition in the line of Carnations; coming into bloom six months from seed and continuing to bloom throughout the Summer. The plants are of robust upright habit; they form ten to twenty stalks, bearing huge flowers of fine form; they come about 90% double, are quite true and are highly clove scented.

This group should not be confused with the old Chabaud type.

COLOR CLASSIFICATION

In view of the numerous recent Sweet Pea introductions, it seems necessary to set up a classification according to color.

Every year we make careful color comparisons of the older varieties and the latest introductions and are in an eminent position to judge their respective merits.

We now take pleasure in submitting a color classification of the Standard Spencers.

The variety we consider best in each color class is indicated by an asterisk (*).
